Introductory Safety/Competence Assessment for Club Multiples

Purpose of assessment: The objective of this assessment process is to ascertain whether a driver and his turnout are sufficiently competent and safe to take part in any Public Outing organised by the Club. The driver is expected to enter their first two events with the turnout on which this assessment was undertaken.

Assessment Procedure: Candidate is asked to produce his horses, harness and vehicle for inspection, harness up and to carry out a simple driving test. He can be questioned to get an insight into his basic knowledge but unlike a test, is not required to talk himself through all his procedures although descriptive comments would be of assistance.

The Assessor should feel free to give helpful advice where necessary.

Part I: Inspection of the Horses, Harness, and Vehicle.

Assess	Particular points to look for and advise on
Horses secured at all times.	<i>Safe practice tying up and leading</i>
Condition	<i>Cleanliness particularly important under harness. Check for sores and rubs. Condition of feet and shoeing.</i>
Suitability of horses for required activity.	
Harness inspected for suitability, cleanliness, condition, wear and tear.	
Vehicle inspected for suitability for the work required and size /weight in relation to horses. Condition and wear.	<i>Loose nuts and bolts, slack wheels.</i>

Part II: Harnessing Up and Correct Fitting of Harness

Assess	Particular points to look for and advise on
Harness up in correct sequence.	<i>Collar/traces, saddle, reins, bridle. Be aware that some may use a different order but bridles will always be last. Aware of danger tying up with bridles on.</i>
Checking correct fit of harness.	<i>Importance of correct fitting collar, breeching, bridle and bit. Highlight where adjustments may be necessary.</i>

Part III: Putting Horses to Vehicle

Assess	Particular points to look for and advice on
Horses under control throughout procedure.	<i>Horses with bridle on and reins attached. Position of groom at horses' heads.</i>
Suitable place.	<i>Level. Awareness of surroundings.</i>
Correct sequence of putting to.	<i>Coupling reins, pole straps and traces.</i>
Adjustment of vehicle and harness to fit horses.	<i>Length of traces, breeching, distance of horses from vehicle. Height of pole.</i>
Mounting of vehicle by driver (either side).	<i>Taking up reins, mounting safely, position on seat, whip.</i>
Balance of vehicle with driver and groom on board. Alterations for groom on backstep.	

Part IV: Safe Driving Techniques

Carry out a series of movements on both reins including walk, trot and halt with some up and down hill included if possible.

A few sets of cones or simple obstacle to be driven to show the ability to negotiate gateways and accurately manoeuvre the turnout.

Assess
The use and understanding of the aids, the control of the horses at the halt walk and trot using any style of driving.
The reaction of the horses and driver to other turnouts, potential hazards, variable terrain and motorised vehicles.
Demonstration of the appropriate hand signals according to the Highway Code.

Part V : Take out and unharness

Assess	Particular points to look for and advise on
Horses under control throughout procedure.	<i>Position of groom at horses' heads.</i>
Driver dismounting.	<i>Put down whip, reins in one hand, dismount, put up reins.</i>
Disconnecting of harness in correct order, and horses taken out.	<i>Traces, pole straps and coupling reins..</i>
Horses led away and harness removed.	
Care of horses after work.

Introductory Safety / Competence Assessment of Club Multiples

Notes for Assessors

The Purpose of the assessment

The objective of this assessment process is to ascertain whether a driver and his turnout are sufficiently competent and safe to take part in any Public Outing organised by the Club. The driver is expected to enter their first two events with the turnout on which this assessment was undertaken.

The Assessment procedure

The member will be asked to produce his horses, harness and vehicle for inspection, harness up and carry out a simple driving test. He may be asked to answer questions to get an insight into his basic knowledge but unlike a test, he will not be required to talk himself through all his procedures although descriptive comments would be of assistance.

The Aim is to EDUCATE and ENCOURAGE.

The Emphasis of this Assessment should be on SAFETY.

The Assessment will be divided into 5 parts under the following headings:

Part I	Inspection of the Horses, Harness and Vehicle
Part II	Harness Up and the Correct Fitting of Harness
Part III	Putting Horses to Vehicle
Part IV	Safe Driving Techniques
Part V	Take Out and Unharness

Try not to make the candidate feel that they are being examined, be neither superior nor patronising. Make the experience enjoyable for both of you.

It is useful to try and gauge the candidates prior experience first, before putting your foot in it !

If after assessment, you feel the candidate is not yet ready, go through the assessment with them and explain where they lack knowledge/skill, and be constructive by suggesting where they can get help or lessons.

If the assessment is done at the home or stables of the applicant rather than at a training day, it is suggested that they are then checked at a training day to ensure their horses/ponies are not a problem in company.

It is also worth discussing the following points:

1. Establish if they have insurance cover (Associate membership of British Carriagedriving gives cover at a very reasonable cost and will keep them in touch with the driving world).
2. Examine vaccination certificate(s). Advise they must have animals fully vaccinated before attending any event (depending on individual Club rules).
3. Give advice on Club safety rules such as:
 - Hard Hats
 - Fire extinguishers in horse boxes and caravans
 - No trotting in box parks
 - Dogs must be kept under control at all times
4. If possible, assign a multiple driver as a mentor to help them on their first appearance.

Guidelines for criteria to qualify as an Assessor:

UKCC Level 3 or Level 4

British Carriagedriving National Advanced Multiple class competitor of three years minimum experience.

Feedback on Introductory Safety/Competence Assessment for Multiples

Purpose of assessment: The objective of this assessment process is to ascertain whether a driver and his turnout are sufficiently competent and safe to take part in any Public Outing organised by a Club. The driver is expected to enter their first two events with the turnout on which this assessment was undertaken.

Assessment Procedure: Candidate is asked to produce his horses, harness and vehicle for inspection, harness up and to carry out a simple driving test. He can be questioned to get an insight into his basic knowledge but unlike a test, is not required to talk himself through all his procedures, although descriptive comments would be of assistance.

The Assessor should feel free to give helpful advice where necessary.

Part I: Inspection of the Horses, Harness, and Vehicle.

Assess	Particular points to look for and advise on	Depth of knowledge, strengths or weaknesses
Horses secured at all times.	<i>Safe practice tying up and leading</i>	
Condition	<i>Cleanliness particularly important under harness. Check for sores and rubs. Condition of feet and shoeing.</i>	
Suitability of horses for required activity.		

Harness inspected for suitability, cleanliness, condition, wear and tear.		
Vehicle inspected for suitability for the work required and size /weight in relation to the horses. Condition and wear.	<i>Loose nuts and bolts, slack wheels.</i>	

Part II: Harnessing Up and Correct Fitting of Harness

Assess	Particular points to look for and advise on	Depth of knowledge, strengths or weaknesses
Harness up in correct sequence.	<i>Collar/traces, saddle, reins, bridle. Aware of danger of tying up with bridles on.</i>	
Checking correct fit of harness.	<i>Importance of correct fitting collar, breeching, bridles and bits. Highlight where adjustments may be necessary.</i>	

Part III: Putting Horses to Vehicle

Assess	Particular points to look for and advise on	Depth of knowledge, strengths or weaknesses
Horse under control throughout procedure.	<i>Horses with bridles on and reins attached. Position of groom at horses' heads.</i>	
Suitable place.	<i>Level. Awareness of surroundings.</i>	

Correct sequence of putting to.	<i>Coupling reins, pole straps and traces.</i>	
Adjustment of vehicle and harness to fit horse.	<i>Length of traces, breeching, distance of horses from vehicle. Height and length of pole.</i>	
Mounting of vehicle by driver (either side).	<i>Taking up reins, mounting safely, position on seat, whip.</i>	
Balance of vehicle with driver and groom on board. Alterations for groom on backstep.		

Part IV: Safe Driving Techniques

Carry out a series of movements on both reins including walk, trot and halt with some up and down hill included if possible.

A few sets of cones or simple obstacle to be driven to show the ability to negotiate gateways and accurately manoeuvre the turnout.

Assess	Depth of knowledge, strengths or weaknesses
The use and understanding of the aids, the control of the horses at the halt walk and trot using any style of driving.	
The reaction of the horses and driver to other turnouts, potential hazards, variable terrain and motorised vehicles.	
Demonstration of the appropriate hand signals according to the Highway Code.	

Part V : Take Out and Unharness

Assess	Particular points to look for and advise on	Depth of knowledge, strengths or weaknesses
Horses under control throughout procedure.	<i>Position of groom at horses' heads.</i>	
Driver dismounting.	<i>Put down whip, reins in one hand, dismount, put up reins.</i>	
Disconnecting of harness in correct order, and horses taken out.	<i>Traces, pole straps and coupling reins.</i>	
Horses led away and harness removed.		
Care of horses after work.

Introductory Safety / Competence Assessment for Club Multiples

Name of Club _____

Venue of Assessment _____ Date _____

Name _____

Address _____

Name of Horses/Ponies _____

The above Driver was assessed for safety and competence during the following 5 parts of the Introductory Safety/Competence Assessment for Club Multiple Drivers.

- | | |
|----------|---|
| Part I | Inspection of the Horses, Harness and Vehicle |
| Part II | Harness Up and Correct Fitting of Harness |
| Part III | Putting Horses to Vehicle |
| Part IV | Safe Driving Techniques |
| Part V | Taking out and Unharnessing |

The objective of the Assessment is to ascertain whether a driver and his turnout are sufficiently competent and safe to take part in any Public Outing organised by a Club. The driver is expected to enter their first two events with the turnout on which this assessment was undertaken.

On this occasion the above driver complied safely and competently with the requirements of the assessment.

The named driver should retain this form for future reference.
